NURSERY COMPANY  
Monroe, Michigan**

## "Born in 1850—Still Growing"

—is a slogan that is more than a "battle-cry" of business. It is a goal of attainment that involves constantly setting the stake ahead.

An old Persian Proverb says:

**"My son, the priceless ingredient of every product in the market is the honorable integrity of him who make it—that quality stands for true worth. Consider well his name before you buy."**

No line of human endeavor carries more of a trust of honor than does the nursery business—and knowing that trust—for ninety-eight years—Greening's Nurseries have been mixing into their products "that priceless ingredient." We have labored unceasingly to make the name Greening mean much in its application to Nursery Products. By close intimacy with the simple laws that govern an honest effort to serve as we would be served, we constantly strive to merit the continued patronage of our friends and customers.

Ninety-eight years is a long time in the span of American business life, and it is unusual for the ideals and pioneer sincerity of purpose to have been carried on for nearly a century, by one family.

You may purchase Greening Nursery Products with the full confidence that Greening's have long ago instituted knowledge for uncertainty, and that Greening Nursery Products are the result of years of knowing definitely what to do, and consistently doing it.
